TABLE LAMPS

As a lighting specialist, our collection of lamps is an integral part of what we do at Currey & Company.

This assortment, hundreds of pieces deep, allows us to explore scale, material and color in a way that our fixed-wire line cannot. So we lean in hard on this, showing off the fine handwork and artisan skill that allows us to bring such innovative style to interiors around the world.

From the creative use of color and shape in glass, to the quiet refinement of solid optic crystal, to the rustic charm of natural and sustainable fibers, to the elegant drama of marble and alabaster, to the versatility of porcelain, we allow the materials to inform the design of each piece.

Our scale ranges from the very tiny to the very grand, ensuring that a functional piece of art for the home can integrate into nearly any space.

Lamps infuse not just light, but color, warmth and drama to a space, and our ever-evolving collection of them moves with the moment, while keeping the focus on timeless function.

BLACK & BRASS

A classic combination, black and brass come together on our lamps in a range of interesting ways. From abstracted sculpturals to linear geometrics, these forms take this traditional color marriage to new design levels.

CRYSTAL

The ultimate in new classic design, our lineup of solid optic crystal lamps is an exploration of rich luxury, where the incredible clarity and refinement of the material is shown to elegant effect.
