2026 INSPIRATION GUIDE

## SPRING 2026

Inspiration can be found anywhere and takes many forms – a concept that informs our approach to style stories for the year.

Sometimes that inspiration is a material. In this case, glass. Colored or clear, mouth-blown or finely cut, recycled or brand new ... this material has endless artful uses.

Often, inspiration is found in the outdoor world. Botanical is a celebration of the plants and flowers that surround us everywhere.

Perhaps the inspiration is a period in time. With Antiquity, we look way back to the days of marble sculptures and classical architecture for both reproductions and reinventions.

We are also inspired by mood. In this season, the mood Twilight, where the light fades to dark. Palettes of browns and black are warmed with golden light, evocative and yes, moody.

Finally, there is Purpose. The functional accessories – boxes and trays – that help bring order and organization for the more mundane aspects of daily life. Or the colorful shades that enliven chandeliers and lamps with color and personality.

## GLASS

Revel in the artistry in glass, with all of its graceful forms and colors. This versatile material allows us to introduce beautiful color into our collections, and the artisan nature of mouth-blown glass really shines this season. Our recycled glass designs also shine with new sculpted forms and finely detailed execution.

## Antiquity

This season, we offer a Greco-Roman-styled homage to marble sculptures and classical architecture. Graceful depictions of carved human forms, replicas of monuments, and architectural fragments harken back to those classical eras that left us with design that still manages to feel timeless.

## MOOD

Think of Twilight and the dark and evocative energy that comes between dusk and dawn. The feeling is subdued, with a palette of blacks and browns, gently offset with the warm glow of light to ward off the melancholy.
